Editorial board

Member of the Editorial Board of Quarterly Journal of Medicine, and other journals.

Grant reviews

Grant reviews for the CRUK, Medical Research Council and the Association for International Cancer Research.

Md thesis

The use of a gonadotrophin releasing hormone analogue in the management of malignancy. This thesis reported the first clinical use in Europe of LHRH agonists in prostate cancer and the use of these agents in the prevention of chemotherapy related sterility and breast cancer.

National committees

National Screening Committee member.

Other activities

In 1996 I established the Prostate Cancer Charity, now Prostate Cancer UK. The Charity funds research around the UK. An Information Service, and hospital based prostate cancer support nurses are funded.
